SALIENT FEATURES

- Double Beam Optics
- 320 x 240 Dots Graphic LCD
- Auto Wavelength Settings
- On-screen Standard and Kinetic Curve Display
- Tungsten/Deuterium Lamp can be turned ON/OFF Individually to Extend Lifetime
- Application Software provides complete control of the instrument from a computer through the built-in USB Port
- Basic, WL Scan, Multi-Wavelength, Kinetic, Quantitative, DNA/Protein modes
- Pre-aligned design makes it convenient to change Lamp
- Large Sample Compartment can accommodate 5 cm path-length cuvettes with optional holders. 8-Position Auto Cell Changer of 10mm path-length provided.

1382

Microprocessor Flame Photometer

SALIENT FEATURES

- μ P Based with Printer Interface
- Five Element Measurement in Single Aspiration of The Sample
- Calibration Curve Programmability Using Maximum of 5 Standards
- Data Processing Through Curve Fitting Techniques: Least Squares, Quadratic
- Multiple Calibration Curves Saving Facility
- Samples Data Storage Facility
- Online Help Key
- Printer Attachment Facility
- Measurement In ppm & meq
- Useful For Both Medical & Soil Testing Applications
- Setup Storage Facility upto 10 setups
- 3.5-8 ml/min at 10-15 psi: Rate of Suction of the Air for Flame Combustion

DISCOVER AN IDEA EVERYDAY

Fostering Scientific Temper

Rescholar is one of the country's most trusted scientific laboratory equipment maker and supplier.

For over three decades, we have been engaged in developing equipment for chemists budding scientists hone their skills to perfection.

Perfectly designed and superbly Crafted, our products are result of an in-depth research and innovation. Our R&D cell takes into account the rapidly changing technological scenario and designs products accordingly.

High precision and top-notch quality has made our equipment a trusted choice with global institutions.

Our earnest endeavour is to provide total customer satisfaction. Our dedicated helpdesk and excellent after-sales service would make your experience with Rescholar an enriching one.

RA INSTRUMENTS

Specialization in custom built items

Transistor Demonstrator

Smoke Cell

Transformer Demonstrator

RA Instruments is known for Calibration Standards, Test and Measuring Instruments. We manufacture Digital Measuring Instruments, Calibration Standards and Resistance Measurement Bridges. Experienced engineers, sophisticated testing instruments, Electronic Reference Standards and Manufacturing infrastructure at our works back our commitment to industry, research and education. We supply these instruments to prestigious Calibration & Testing Labs, cable, transformer, generator set manufacturer industries and all these instruments work there to enhance quality and improve their products. We are designed and introduced new products in our range of instruments at regular intervals. Some of reputed OEM uses our instruments in their projects such as resistance standards 0.000001Ω/5000 Amp. To 10 Tera Ω/5000 Volts

LabAsia 2019

7th Edition Malaysia International Scientific Instrument and Laboratory Equipment Exhibition and Conference

**15 - 17
OCTOBER 2019**

Putra World
Trade Centre (PWTC)
Kuala Lumpur,
Malaysia

**ASEAN's
Leading Lab
Exhibition**

5,912 Visitors
from 54 Countries

144 Exhibitors featuring
brands from 54 Countries

75% * of Visitors have
an active role in
purchasing decision

75% of exhibitors are
rebooking again for
LabAsia 2019

This is a very well-known trade show where most of the instrument suppliers will be here. This is the second time we've participated. After the opening ceremony, there were a lot of customers here, we've managed to get some positive leads.

Stanley Tan
General Manager of Shimadzu Malaysia Sdn Bhd

We realised that there are more participants from overseas and visitors from other countries as well. We appreciate LabAsia for providing such a platform for companies like us, so that we can diversify our business and market.

Mr. C.Y. Loo
Country Sales Manager of Tech Research (M) Sdn Bhd

LET US CONNECT YOU TO ASEAN'S MARKETS TODAY
